Candidate Report

Personal Details

Name: DANG VAN Y

Mobile: 0908133919 | Email: dangvany@gmail.com

Gender: Male

Marital Status: Married

Citizen of: Vietnam

Position Applied: Senior Frontend Engineer (Next.js, Fintech / Payment Systems)

Career Summary

Timeline	Company & Position
Sep 2022 to present	**GEAR INC** - Fullstack Developer (Frontend focus)
Nov 2020 to August 2022	**SACOMBANK** - Frontend Developer
Sep 2016 to Oct 2020	**PRUDENTIAL FINANCE** - Frontend Developer (Fintech)
Jul 2013 to Aug 2016	**RINGER VIETNAM** - Frontend Developer
Jun 2009 to Jun 2013	**GAMELOFT VIETNAM** - Frontend Developer

Professional Experience

GEAR INC (Sep 2022 to Present)

Fullstack Developer (Frontend focus)

- Led frontend modernization for a complex web platform: improved build performance, refactored legacy components for maintainability, and enhanced developer workflow (DX)
- Built Next.js and React applications with TypeScript, Tailwind CSS, and SCSS for maintainable frontend architecture
- Practiced Test-Driven Development (TDD) with Jest and React Testing Library; maintained CI/CD pipelines with GitHub Actions
- Followed trunk-based development and feature flag deployment for safe, incremental releases
- Focused on performance optimization, developer workflow (DX), and reusable component libraries

- Collaborated with offshore teams across time zones on complex web applications

Reason for leaving: Project ends in Vietnam.

SACOMBANK VIETNAM (Nov 2020 to 2022)

Frontend Developer

- Contributed to rebuilding frontend for digital banking platform: optimized performance (35% load time reduction), improved code maintainability, and streamlined developer workflow
- Integrated payment transaction systems and payment gateway flows into banking web and mobile applications
- Built frontend with React.js, TypeScript, SCSS/SASS for complex banking interfaces; maintained CI/CD with Jenkins
- Developed reusable component libraries with TDD (Jest); optimized performance with code splitting and lazy loading (35% load time reduction)
- Worked with RESTful APIs, JWT auth, and backend services for secure payment processing

Reason for leaving: Project ends.

PRUDENTIAL FINANCE (Sep 2016 to 2020)

Frontend Developer (Fintech)

- Integrated payment transaction systems and financial flows into React applications; worked with APIs for transaction processing
- Built modular UI components with SASS/LESS; practiced TDD with Mocha; used trunk-based development in Scrum
- Implemented responsive HTML5/CSS3 interfaces; optimized frontend performance and maintainability

Reason for leaving: Project completion.

RINGER VIETNAM (Jul 2013 to Aug 2016)

Frontend Developer

- Developed responsive web interfaces with HTML5, CSS3, and JavaScript; built interactive components with cross-browser compatibility
- Participated in Agile ceremonies; collaborated with distributed teams on UI implementation

Reason for leaving: Project ends in Vietnam.

GAMELOFT VIETNAM (Jun 2009 to Jun 2013)

Frontend Developer

- Developed frontend interfaces with HTML5, CSS3, JavaScript; implemented responsive design for cross-platform compatibility

- Worked with international teams following structured development processes

Reason for leaving: Wanted to change environment.

Academic Background

2001 to 2005: Bachelor of Design and Multimedia, Major in Communication Design, RMIT Vietnam

Notable Achievement: Competed in National Design Competition, reached finals with interactive web design project. Created a custom CSS animation library that was adopted by the department for student showcase websites.

Skills and Knowledge

- **Core Stack (JD-aligned):** TypeScript, Next.js, React.js, HTML5, SCSS/SASS/CSS, Tailwind CSS, Bun (runtime & package manager), PostgreSQL (schema design, queries, backend integration)
- **Payment & Fintech:** Experience integrating payment transaction systems and payment gateways in banking and finance applications (Sacombank, Prudential Finance, and related fintech projects)
- **Engineering Practices:** Test-Driven Development (TDD), CI/CD pipelines (GitHub Actions, Jenkins), Trunk-Based Development, Feature Flag deployment, Software design & Developer Experience (DX)
- **State Management:** Redux, Context API, easy-peasy
- **Architecture:** Microservices, Micro Frontends, Component-Based Architecture
- **Testing:** Jest, React Testing Library, unit testing, integration testing, test automation
- **API Integration:** RESTful APIs, JWT authorization, GraphQL (basic)
- **Nice to have (familiar/exploring):** NestJS, Hono, Orval; interest in BetterAuth, Tremor, Terraform
- **Tools:** Git, Webpack, npm/yarn, JIRA, Confluence
- **Other:** Performance optimization, cross-browser compatibility, working with distributed and offshore teams

Languages: English (Fluent), Vietnamese (Excellent)

Portfolio Projects

- WWE Champions Game (Product Management & UI) — View
- Sacombank Digital Banking Platform (Product Owner) — View
- HDBank Mobile App (Product Strategy) — View
- Outdoors Marketplace (Product Manager) — View

- Third Place Marketplace (Product Owner) — View
- EVN App (Product Roadmap) — View
- Propzy Mortgage (Product Requirements) — View
- Playsweep (Web and Game) — View
- Arcane Rush (Web and Game) — View
- EIM (Employee Management) — View
- BPO (ERP) — View

- **Payment Gateway:** Demo payment flow: create order → redirect → callback → verify → update DB. Next.js (App Router), TypeScript, TailwindCSS, SQLite. Idempotency, signature verification. — View
- **AI Backend Job Finder:** Scrapes job sites, LLM filters backend jobs, desktop UI. — View
- **AI Email Router:** LLM classifies email intent, routes to department, desktop app. — View
- **Case mini backend:** Mini case/order management API: CRUD, validation, pagination. Spring Boot, Redis cache, Swagger, Docker. — View
- **Microservices:** Multiple Spring Boot services, event-driven via Kafka. PostgreSQL, Redis, built to scale, Docker. — View
- **Payment transaction API:** Safe payment transaction API: idempotency keys to avoid duplicates, transaction-safe DB operations. Spring Boot, PostgreSQL, Redis. — View
